Now I know there's something wrong 'cause I shiver
Thousand spiders creeping 'round in my middle
I am trying to ignore all my feelings
But it doesn't help at all, doesn't help at all
It's like a rollercoaster ride
Going up going down, turning me around
it's like a neverending trip that you took 'cause it's hip
there is no way out
I'm in love
I'm in love
Speeding up to a 1000 miles per hour
I'm in love
I'm insane
Someone screwed my weary little brain
All that seemed to be a joke is not funny
No matter if it's night or day, I keep running
I'm about to realise what was scaring me the most
That I like to be a victim, that I'm lost
It's like a rollercoaster ride
Going up, going down, turning me around
It's like a neverending trip that you took 'cause it's hip
There is no way out
I'm in love
I'm in love
Speeding up to a 1000 miles per hour
I'm in love
I'm insane
Someone screwed my weary little brain
I'm in love
Something that I couldn't see before
It's like a bloody thriller with a silly happy end that you
never expected
It's like a pretty dream that I had that night when I felt
neglected
