If I could feel all your wishes when you felt alone
You said about yesterday before
We went high to the mountains to see the moon
Then we swore to bury our wounds
Because when the dawn lights the day shows me
I won't go away I'll stay

Always be waiting
Always be waiting for you

I'm your saviour into pieces
Take me with you tonite
It's all over when I'm with you
I'm your saviour tonite
I'll be by your side

We went down to the ocean when I felt warm air
And we swore to drown our tears
Because when a new day is born the sun fades
I won't go away you'll stay

Always be waiting
Always be waiting for you

I'm your saviour into pieces
Take me with you tonite
It's all over when I'm with you
I'm your saviour tonite
I'll be by your side
Make me whole take me with you
Heal my soul we'll survive
Don't you know that I need you
Don't you know don't you know
I am here to believe you
'cause we swore to be true
Forever and always

I'm your saviour into pieces
Take me with you tonite
It's all over when I'm with you
I'm your saviour tonite

I'll be by your side

I'm your saviour into pieces
Take me with you tonite
It's all over when I'm with you
I'm your saviour tonite
