Day one...

You didn't really catch my eye,
You're pleasant, very nice,
But I didn't realize
You're the one...

Two...

Until now there were only a few,
Who were able to break into,
My very well hidden world,
That's for sure...

Three...

A silly angel shoots at me,
I am naked in my dream.
Suddenly you disappear,
End Scene...

Don't you know?

Don't you know better?

Very proud...

Like a peacock.

Don't you know?

Don't you know better?

Bring down your feathers.

You don't have to be a Superstar,

To belong here...,

I'm in love with you...

You got me with a speed of light,

Black and white,

Dynamit, babe!

Push my buttons

Make me satisfied.

Four...

There were only three before,
A millennium to go...
Together me and you
Really do...
Five, six!
Another good step to sex...
This time I will have success,
Together me and you...
Will you too?

Don't you know?
Don't you know better?
Very proud
Like a peacock.
Don't you know?
Don't you know better?
Bring down your feathers.

You don't have to be a Superstar,
To belong here...
I'm in love with you...
You got me with a speed of light,
Black and white...
Dynamit, babe!
Push my buttons,
Make me satisfied.

.....

You're turning me on,
The way you eat my lips.
How you kicked my ass last week?
I don't care than we get no sleep,
Twisting and turning.
