Drink our blood come on and all
Slaves and stowaways
Spread the word amunst the crew
Capital mutiny

We only break a solemn word
Drink up when we work
I swear by god, we?re cursed

Burn in hell, burn in in hell
(burn burn burn)
we?ll burn in hell, burn in hell
(burn burn burn)

The prisoners were navy men
all under calico jack
a loaded vessel with guns and ammo
stricked rations

We only break a solemn word
Drink up when we work
I swear by god, we?re cursed

Angry bowmen near do-wellers
Upper said class, born to sharks
Hang us high for 40 moons
And let the worst in this not worsen this
Not a woman alive that?s slept with I
Slept with us and lived
Scurvies scavies and disease
We?re the black plague
