(Music: T. Mewes; Lyrics: Marta Jandová)

Grey and dirty colors, you said

Time will make them brighter, you said
Poor and jealous people, you said
Hide or come to the top, you said

Wealth and perfect order, you said
All that one could need, you said
Cold and arrogant, you said
Feel like someone better

All that can be said All that can be thought
It's enough to see thought
All those sayings
You said I can't reach it

One is like another, I said
Love and hate will stay, I said
All have the same mother, I said
I feel good anywhere

All that can be said All that can be thought
It's enough to see thought
All those sayings

You said I can't reach it
