Two Popes are left China wants Jerusalem President
Elect
Ballot boxes underhanded. The luner eclipse Mother
Earth
Is shakin' fleas the dog's creepin' in animals are
followin'
They've got yer friends under wraps by the
government
We're close to the end yer just a man, ya can't predict.
Two thousand and ten, law none average washed up
waters,
Last one on earth aliens, Nixon, Johnson,
Reagan all for one and all, assassination.
Roswell was no balloon Oswald was not alone
We've had the time machine we know what's gonna
happen.
