"Blood On The Sun"

Ashe's on the moon I'm frozen over you scratches
yeah, yeah
I've been forsaken my guts already ache feels like
treason
My soul's about to break so frozen over you, frozen.
Blood is on the sun with ashes on the moon
What's done is done I ain't over you the blood is on the
sun
And I'll catch twenty two what's done is done we look it
up.
Ashes on the moon, I'm frozen over you scratches
yeah, yeah
I'm prayin' that ya think of me with lava on the rocks
Blind with light dark as the sea we sifted through the
knocks
So frozen over you, frozen.
