"The Which Way"

You'll know when ya know it and you'll hope when ya
Don't no one wants to show it and all the clouds that
won't.
Do you see the camera do you see the video tape
Locked in a block of cement girl fast forward the play.
We're the used "expendable" useless news "it's
horrible".
We're in the which way, were in the meat ya waste
We're int he which way, we're history. Defense military
man
He's got an excuse a uniform man in the promised land
Throwin' the die at youth. A shallow man in the deep
end
Ya woke up in a curse a full list of rejection slips
Old with an empty purse ya know.
