Vaccinate me its the only way its my only hope sterilize
this rage i spawn no more of this no more pollution to
the world all i offer is compassion and love while all the
world offers is a cold lonely hand fuck the choice of
ammunition fuck the pain tear me apart from inside out
i deserve for my lack of hatred the forgiving souls will
learn we have no place left on this earth exterminate
this dying breed kill us off one by one kill us all prepare
the gas chambers load the riffles and light the torches
the trains are on their way were all as good as dead no
emotions left were all as good as dead
