Little wall flower on the shelf
Standing by herself
Never had the nerve to take a chance
So let the little girl dance

Let the little girl dance
Let the little girl dance
She never danced before
So let her on the floor

Let the little girl dance
Let the little girl dance
She wants to give it a try
So let the little girl by

She's been a little wallflower on the shelf
Standing by herself
Now she's got the nerve to take a chance
So let the little girl dance

Let the little girl through
She wants to dance by you
Buddy can't you see
She wants to dance with me

She's been a little wallflower on the shelf
Standing by herself
Now she's got the nerve to take a chance
So let the little girl dance

Let the little girl through
She wants to dance by you
Buddy can't you see
She wants to dance with me

Little wallflower on the shelf
Standing by herself
Never had the nerve to take a chance
Let the little girl dance
