She used to be a shy girl
Now she is a wild girl
She used to play around in the park
Now she waits until it's dark

Just thirteen
It's thirteen

She used to go around with Jane
Now she won't see her again
She used to like her friends at school
Now she don't consider em cool

Just thirteen
It's thirteen

And on her own she is afraid
She thinks of all the enemies she's made
Yes on her own she is afraid
She wonders if she'll ever make the grade

Just thirteen
It's thirteen

She used to be a shy girl...

Just thirteen
It's thirteen
