They used to say we were born to lose
That we'd never make it
Our whole lives through that we'd be stuck
In this dead end town

With the whole world against us
We set out on our own to find
Our way of life and way around

They tried to say we'd be nothing
They only said it just to keep us down
But your never gonna get me down
And your never gonna keep us down
You cant take this time away

'Cause I am everything I said I'd ever be
So fuck you and fuck your town
'Cause I got dreams
I'm gonna conquer the world
Just you wait and see
I'm proving you wrong every single day

I remember as if it was yesterday
The good old days back in 1993
Through thick and thin you are my blood brother
We all got drunk and sang our songs
It's what we did for fun

They tried to say we'd be nothing
They only said it just to keep us down
But you can't hold me down
They keep runnin' there mouths
And sayin' somethin' that I don't need to hear

'Cause I am everything I said I'd be
So fuck you and fuck your town
'Cause I got dreams
I'm gonna conquer the world
Just you wait and see
I'm proving you wrong every single day

Now we're older and we'll never be the same

We don't live by the rules
And that will never change

'Cause I am everything I said I'd be
So fuck you and fuck your town
'Cause I got dreams
I'm gonna conquer the world
Just you wait and see
I'm proving you wrong every single day

I'm gonna conquer the world
I'm gonna conquer the world
I'm gonna conquer the world
