relationships they sting like bees to butterflies
you must remember to keep a catious mind
it's alright baby, it's all so frustrating
it's all right darling
tell yourself

it's over, it's over, it's over,
it's over, it's over
tell yourself

you gotta swallow this down
you gotta make a stand
you gotta take it one day at a time
as you swear

at times this all seems so hard
hit or miss you cry
you must remember to keep a catious mind
it's alright baby, it's all so frustrating
it's all right darling
tell yourself

it's over, it's over, it's over,
it's over, it's over
tell yourself

you gotta swallow this down
you gotta make a stand
you gotta take it one day at a time
as you swear

and you go your seperate ways
as take this day by day
when there's nothing left to say

you got a sad song
i got a sad one too

you gotta swallow this down
and tell yourself

you gotta swallow this down

you gotta make a stand
you gotta take it one day at a time
as you swear

you gotta swallow this down
you gotta make a stand
you gotta take it one day at a time
as you swear

you gotta swallow this down
you gotta make a stand
you gotta take it one day at a time
as you swear
