And I don't wanna live my life through my colour TV  
With fascination  
And I don't wanna love your body on the bed of the sea  
With fascination  
There is black and white they're the colours of my heart  
With fascination  
And I don't wanna kill your toys  
With the thought that I've got  
The life is a lie and nobody can reach you  
Dry my tears in the rain, cover me with  
Just fascination  
Dry my tears in the rain the life is a lie but I see  
Just fascination

And I don't wanna love the girl that I saw on the screen  
With fascination  
And I don't wanna play with diamonds in a poor girls  
dream  
With fascination  
Dry my tears in the rain  
With fascination  
And I don't wanna kill your toys with the thought that  
I've got  
The life is a lie and nobody can reach you  
Dry my tears in the rain, cover me with  
Just fascination  
Dry my tears in the rain the life is a lie but I see  
Just fascination
