I walk alone through the sadness of town  
I've lost my friends, I've lost my girl  
I wanna change and I wanna go  
Show me the love Looking for hope  
I'm a lonesome cowboy  
The desert is my heart  
I've got a gun, honeymoon through the times  
I sit alone, listen to the bell  
I wanna change now  
Century of love  
In my dreams I see the girl

Kiss the hope  
I'm a lonesome cowboy  
The desert is my heart  
Now I've changed the times  
I've been waiting for you  
But the loneliness is again in my heart  
Oh my life has changed now I sit here in my car  
Listen to the words, which the radio speaks  
Longing for the parting kiss  
I'm a lonesome cowboy  
The desert is my heart
