Eating some junk food,drinking a Coke
grabbing my deck and i'm ready to go!
out with my friends,doing silly things
laughing and riding,it's my youth in the "scene"
coming back late,tired to death
been to a show and skated all night
that's the good life,the best i can get
i have no remorse,i have no regrets!

don't give a fuck about your boredom

what we call hardcore is also about fun!
the message is important and the fun is too
i'm a youngster what am I gonna do?!

watching "Ban-This",still doin' old tricks
trying to repeat what I've see on the screen
Germs in my stereo,or JFA.....
skateboard and punk what else can i say?
my...youth...my...my youth's gone thrashin'!
