Well it's been a year and there's so much to tell
Been doin' alright inspite of my self
Just wish I could stop feelin' mad when I pray
But I know I'm gonna get there someday

Got that job I was dreamin' about
Sometimes it's rough tracelin' around
When who I wanna be still seems so dar away
But I know I'm gonna get there someday

Glad I told you all I meant to
While I had the chance
'Cause every moment I had with you
Made me who I am

By the way I met someone new
Wouldn't you know she's a whole lot like you
Still I ain't ready to settle down in one place
But I know I'm gonna get there someday

Well I guess I'll be movin' on
I'll just leave these daises by your stone
And Mama, I still miss you every day
But I know I'm gonna get there someday
When that'll be, guess only God can say
But I know I'm gonna get there someday
