When I was young I told my mum  
I'm going to walk on the Moon someday  
Armstrong and Aldrin spoke to me  
From Houston and Cape Kennedy  
And I watched the Eagle landing  
On a night when the Moon was full  
And as it tugged at the tides, I knew deep inside  
I too could feel its pull

I lay in my bed and dreamed I walked  
On the Sea of Tranquillity  
I knew that someday soon we'd all sail to the moon  
On the high tide of technology  
But the dreams have all been taken  
And the window seats taken too  
And 2001 has almost come and gone  
What am I supposed to do?

Now that the space race is over  
It's been and it's gone and I'll never get to the moon  
Because the space race is over  
And I can't help but feel we've all grown up too soon

Now my dreams have all been shattered  
And my wings are tattered too  
And I can still fly but not half as high  
As once I wanted to

Now that the space race is over  
It's been and it's gone and I'll never get to the moon  
Because the space race is over  
And I can't help but feel we've all grown up too soon

My son and I stand beneath the great night sky  
And gaze up in wonder  
I tell him the tale of Apollo And he says
