Take down the Union Jack, it clashes with the sunset
And put it in the attic with the emperors old clothes
When did it fall apart? Sometime in the 80s
When the Great and the Good gave way to the greedy
and the mean
Britain isn't cool you know, its really not that
great
It's not a proper country, it doesn't even have a
patron saint
It's just an economic union that's passed its
sell-by date
Take down the Union Jack, it clashes with the sunset
And ask our Scottish neighbours if independence looks
any good
Cos they just might understand how to take an
abstract notion
Of personal identity and turn it into nationhood
Is this the 19th century that I'm watching on tv?
The dear old Queen of England handing out those
MBEs
Member of the British Empire - that doesn't
sound too good to me
Gilbert and George are taking the piss aren't
they?
Gilbert and George are taking the piss.
What could be more British than here's a
picture of my bum?
Gilbert and George are taking the piss
Take down the Union Jack, it clashes with the sunset
And pile all those history books, but don't throw
them away
They just might have some clues about what it really
means
