Girl I've been waitin on this long hard day to get over  
So i can rest my head right here on your shoulder  
I just wanna lay here and feel you breathe  
Listen to the rhythm of your heartbeat  
And see where it leads...

We're wide awake but girl I wanna make you close your  
eyes  
And say my name like only you can say it and hold me  
tight  
All I need is only you and me alone tonight  
I wanna make you close your eyes...oh yeah...

You can make me work for it girl if you want to  
Just leave a trail for me to follow you into the bedroom  
And if you need a little bit of help from me  
Babe there's not a button that I cant reach  
Lets see where it leads

We're wide awake but girl I wanna make you close your  
eyes

And say my name like only you can say it and hold me  
tight  
All I need is only you and me alone tonight  
I wanna make you close your eyes

I wanna take you somewhere...out there...  
'Til the world fades out of sight

We're wide awake but girl I wanna make you close your  
eyes  
And say my name like only you can say it and hold me  
tight... just hold me tight  
All I need is only you and me alone tonight  
Yeah.. I wanna make you close your eyes...oh

I wanna make you close your eyes...oh  
Girl... I wanna make you close your eyes
