Girl I've been waitin' on this long hard day to get over
So I can rest my head right here on your shoulder
I just wanna lay here and feel you breathe
Listen to the rhythm of your heartbeat and see where it
leads

We're wide awake but girl I wanna make you close your
eyes
And say my name like only you can say it and hold me
tight
All I need is only you and me alone tonight
I wanna make you close your eyes

You can make me work for it girl if you want to
Just leave a trail for me to follow you into the bedroom
And if you need a little bit of help from me
Babe there's not a button that I can't reach, let's see
where it leads

We're wide awake but girl I wanna make you close your
eyes
And say my name like only you can say it and hold me
tight
All I need is only you and me alone tonight
I wanna make you close your eyes

I wanna take you somewhere out there till the world
fades out of sight

We're wide awake but girl I wanna make you close your
eyes
And say my name like only you can say it and hold me
tight
Just hold me tight
All I need is only you and me alone tonight
Yeah, I wanna make you close your eyes
I wanna make you close your eyes
Girl I wanna make you close your eyes
