"Thinking Of You"

When I'm all alone
or in a crowd.
In a quiet place
where music's loud.
When I'm on the road
or in the other room.
That's how you know
I'm thinking of you.

Where the flowers grow
where the leaves turn brown.
Where the sun is hot
where the snow falls down, down.
Where the clouds are gray
and the sky so blue.
That's how you know
I'm thinking of you.

Chorus: I'm thinking of you
that's all I do, all the time.
You're always the first and the
last thing on this heart of mine.
No matter where I go or what I do
I'm thinking of you.

And the memory of
who I used to be.
What I cared about
before you came to me...baby
Every selfish thought
all I thought I knew.
Has been replaced
with thinking of you.

Chorus twice

Always thinking of you....yes I am.....
