The inexorable aim  
Aim of illumination  
Verification of theories  
On different levels  
Engaged  
Entirely beyond sensual  
Without consolation  
In half way  
Mode is direct  
Uncertain of significance  
Lost amongst  
Gaping sea of views  
Dicersification  
Deep urge  
Penetration of conditions  
Latent for mortals  
For their biases  
Unwitting way of answers  
Self assurance  
Lack of scrutiny  
Mixed with envy

I am hungry  
Gaze delineate the path  
Of ubiquitous  
I am immerse in this sea  
To fight right answer  
For right question
