Your mind feel just a fever
Heart lost into the river,
Transport your space to sky
Don't tell me another lie.

Flesh
The carnal senses
Go beyond the spirit
Infallible shadow of the wish,
Dismembering the pleasure delights.

Wound
Is time for clos (The doors)
For another fall
Into a distant hell
Into a frozen dawn.

Blood
Now is time for bleed
Maybe, one more time
The sins will be the same
But how it will be more nice.

Fall
It's hard to live
So wild!
Understand the faith
And why? Believe in the morning stars.

Mind
Transport your space to sky
Ignore your stupid cry
Don't tell me another lie.

Fever
Your mind feel just a fever
Heart lost into the river
So hard but I believe it
Just make a change and do it.
