This night  
In a sensual immensity  
The groves, the passion  
The intensive silence  
And the floaty snow  
In a road without walls.

I had a birds dream  
That fly without wings  
And a bendage in their eyes  
Just blinded their way.

I wouldn't say not  
I don't needed leg as wings  
I've only need the cord  
To approach me every step to you.

To feel the smoke  
I feel that had fire  
And beyond years, dust  
And newly the flames.

The ambient and the rare faces,  
Is not just the anger.

To feel the warm  
I feel that had fire  
Anf behind wars, dust  
And newly the pain.

But isn't just the flames,  
Isn't just the affliction.

Isn't just the indifference  
But the load of fault and agony  
And beyond winds, the wound  
And finally the crust.

Isn't just the flames  
Now, I want to awake.

A twister close to the road

Whilst the body floated  
In that dream, in that night,  
In that sensual reality.

The time was wall for war  
My soul among the swords  
Without thing that I'll be there  
And could be the carnal ghost  
That violate my long veil  
But I know that in the faith  
Not rest upon me  
Because I know  
That even had fire.

To feel the warm  
I feel that had fire  
Isn't just the indifference  
But the load of fault and agony  
But isn't just the flames,  
Isn't just the same,  
Isn't just the flames  
Now I want to awake.
