I shall be free  
When the time has come,  
The misery will gone  
And bring me back my soul.

My ethereal landscape  
Will be the gate of love and trust  
Through the sand and through the snow  
I will cross, my eternal road.

No more rage and no more blood  
That just recalls for twisted worlds  
I don't care if I'm failed  
Don't want damages in my way.

Something shinning at the woods  
More even than you  
Bring me rest to all my dreams  
Dreams of blood and dreams of ghouls.

Watch my sleep in this long night  
Shadow finder of all tales  
Seedind sperm, sperm of death  
Thousand races will segregate.  
All my plans fall to decay  
All those banished, even sky!  
And the sky will turn to black  
At the day when I come back

When the hell will come to me  
For the deepest feels of lost  
I'll just felt so offend  
Then I believed in heavens lost.

All my faith will fallen dawn  
No more wall fances to my eyes  
All confused, no place to go  
One more battle, you and I.

Times of torments coming out  
Thorny grounds will growing up  
No more shines lighting my path

But I don't care because I know,  
From those ashes I'll reborn.
