Its three years gone / still i rattle on / This crazy world is
moving fast / Here I am / guitar in hand / I wonder how
long this will last / I wish you could see / what this
means to me / It means more than I could ever say / So
I close my eyes and I think real hard / Back to the days
spent on the school yard / and how many times I
wished that this were true / that this were true / it
makes me smile / To the famous three / who never
believed / I'm singing this song to you / look at me now
/ I'm so proud to be / right here, right now / a part of
this
