put me in a rocketship and send me straight to mars i'll
bring you back a pocket full of stars shoot me thru the
ozone layer somewhere off the charts the world is
theirs but the rest of it is ours dream with me the trip is
always free take my hand and leave this world for
awhile hop aboard my astral plane it should be quite a
ride we'll buzz the eiffel tower and the english
countryside into the sun I'll dip my wing and fly back
four hundred years to give to you a sonnet penned by
shakespeare dream with me the trip is always free take
my hand and leave this world for awhile
