Looking out my favorite window / Been smoking
cigarettes all night / Wishing that you were here with
me / And maybe things would be alright / You don't
want to me back / And I don't want to hold you down /
and we are not even in the same town / You've done so
much for me / More than I could ever say / Now you say
time to move along / Though I don't want to fight / It's
really cold tonight / My arms are open wide / I miss you
/ So much distance in between us / That I can see the
side your on / I don't know if you still love me / how can
I know when you are gone / I ask you for a cigarette /
But you just laugh at me insted / Is this what you
needed before / I thought I was worth so much more
