

Diesel Boy "Shining Star"

I drive by your house its late
Your silhouette
In the window
I want to stand on your front lawn
With a radio
Playing our song
Like John Cusack
In Say Anything
But acting scares me
And so does everything
You'll always be my shining star
And I wonder how you are

And why you haven't called
I miss the way you look at night
Standing before me
In just your panties
I want to get lost in your hair
I want to feel you
Like I used to
And do you miss me?
Like I miss you
Remember our tree?
The way I kissed you
