britney spears makes my head get all light and heather
graham naked in boogie nights winona ryder i
fantasize about her with carmen elektra naked beside
her i'd hump all the chicks on beverly hills 90210 i'd
hump cameron diaz and i'd hump alyssa milano and so
what if i'm a few years shy of being thirty should my
mind stop being dirty you know what i'd do to anna
kournikova take her to the toilet and bend her over how
about a threesome with angelina jolie jennifer lopez
and gwen stefani even though her movies suck lately
drew barrymore rocks but i'd be forced to dump her for
jennifer anniston or courtney cox and courtney love
only looks good half the time but i'd fuck her too i'm so
desperate i'd fuck you girls with three names drive me
triple the insane they get trapped inside my brain sarah
michelle gellar melissa joan hart and sarah jessica
parker but this song won't change anything i'll still be
alone in my room stroking my cat
