### "Good Times Liberation Blues"

Visit "[Good Times Liberation Blues](#)" on MotoLyrics.com

Let your spirit shine it's a good thing  
Chain your demons down  
Till they're nothing at all  
And even though the material world is working  
overtime  
Don't think twice you've just begun  
To have good times

Now that liberty is calling  
You you you and me we gotta go  
Over thirty one and the heart and soul is doing fine  
Order food and a meal come  
Stewardess take me to the sun  
Let's flash plastic for ever more  
Ah good times  
Good times

Whet my appetite  
I'm spoiling for a fight  
This could be the finest hour

When the best it gets is just average  
When the calibration is uptight  
if the DJ's talking as the voice of the nation  
Don't think twice you've just begun  
The road is tough, but the road is fun  
Your hour come baby then it's gone  
Ah! Good times  
Good times  
Goodbye, what is this?  
Good times just step away  
Ah! Good times
