When the rap's got you running  
Shit beats at your door  
All the bread's been eaten  
What was that struggle for  
Wasteland lying all around you  
Cold, cold, cold  
Images screaming at you  
Let's do the Corporate Waltz

Now I never meant to see more than you  
I wouldn't be a flag seller in the human zoo  
Cos it's so sycophantic, celebrated, base and false  
Watching every generation do th Corporate Waltz

And I'm ready to fight yeah! I'm ready to flow  
You do what you ought to  
I won't do the Corporate Waltz  
- Danube for a while - Go mad go -  
Keep your secrets in the city  
What you have I guess you hold  
But you wake up one bright morning to find your game  
has gone  
When it first gets a hold  
You're too young to know  
No warning from your mama  
No reality at school  
Then it's a veil of silence  
Back off you're getting too close  
I dance to my own tune sucker  
I won't do the Corporate Waltz
