Wonderful - the things you do
Everyday - I believe I'm loving you
Oh! I think of you, yes I do
Footprints and fingertips in the morning dew
What is sense, what is fair what is wrong with the world
out there?
You're wonderful, wonderful, wonderful the things you
do
Everyday, everyday, everyday, I believe I'm loving you

The sun is following us
I don't know why
But even the darkest hour couldn't bewitch or mystify

Wonderful - your healing hands, your soul's embrace
There's no argument, it's past debate

We've got not hotel
We've got no brakes
What time is it in heaven, I can hardly wait

You're wonderful - wonderful wonderful the things you
do
And everyday, everyday, everyday I believe I'm loving
you
