"You Killed Sugar Ray"

I know your face, I've seen it before
I recognize your baby eyes
There's a key, didn't you find the door
Out of this political world?
Where the shades hid the shadows
And the shadows hide tomorrow
Oh oh oh oh! - Didn't you kill Sugar Ray?
Oh oh oh oh you killed Sugar Ray

I know you face
I've seen it before
I recognize you killing eyes
I never forgot
I always recall

You can't hide the dead no more
There's unfinished business
I can't believe in forgiveness

Oh oh oh oh! - It was you who killed Sugar Ray
Oh oh oh oh! - You killed Sugar Ray
