### "For The Children Of Love"

Visit "[For The Children Of Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

There's the child who dies by hunger  
There's the child who dies in war  
And the need of help gets stronger  
There's so much we can't ignore

There's the child who lives in danger  
There's the child who lives in pain  
There's the child who's a stranger  
They need love, helping hand

And some day we will live together  
In a world of harmony  
'Cause we never give it up and we never gonna lose  
Come on children, sing with me

For the children of love  
We want peace in this world  
For the children of love  
Every boy and every girl

For the children of love  
We want joy, we want fun  
For the children of love  
Freedom just for everyone

There's a child who lost it's parents  
There's a child who lost it's friends  
If there's nobody, who help them  
Ohh, this story never ends

Ohh, today we stay together  
And we know our destiny  
And we never give it up and we never gonna lose  
Come on children, sing with me

For the children of love

We want peace in this world  
For the children of love  
Every boy and every girl

For the children of love  
We want joy, we want fun  
For the children of love  
Freedom just for everyone

Believe in love, believe in love  
Freedom for all, freedom for all  
For the children of the world  
We want it all

For the children of love  
We want peace in this world  
For the children of love  
Every boy and every girl

For the children of love  
We want joy, we want fun  
For the children of love  
Freedom just for everyone
