Please forgive me
I don't want to make you cry
Please forgive me
Oh I'm just your jealous guy
Oh, it's five o'clock - we're sitting in my car
Oh, just you and me - and a lonely star
Oh, I swear you - oh I will love you baby
Oh, I need you - more and more

Oh, I miss you (I miss you so)
I'm the greatest fool
To let you go (to let you go)
Oh, we started in heaven
I'm waiting just for you
I thought we stay together - just we two

Please forgive me
You are strong when I am weak
Please forgive me
You're my heart if I can't speak
Secret love - with no name
I feel you everyday
Loneliness just found me
Why you walked away ?
Oh, I swear you - I will love you baby
Oh, I need you more and more

Oh, I miss you (I miss you so)
I'm the greatest fool
To let you go (to let you go)
Oh, we started in heaven
I'm waiting just for you
I thought we stay together - just we two
Oh, I miss you so (I miss you so)
The only thing I need is you I know

My heart is always open
I'll never smile again
If I can't be your love
I will be your friend
