(We'll)

Keep runnin' till we run outta road
Keep a rollin' till the wheels won't roll
Where we're headed baby, no one knows
Heaven knows how far we'll go

We can't stop now, we can't look back
(No turnin' back)
We can't give up, it's you and me
On the highway of love

Keep it over in the passing lane
Through the dust and the driving rain
Through the eye of a hurricane
Movin' on like a fast freight train

We can't stop now, we can't look back
(No turnin' back)
We can't give up, it's you and me
On the highway of love

We'll leave the past behind
Like we're runnin' from the law
We gotta take a chance
If we're gonna have it all

Life's an open road and time is flying by
We're headed out to where
Forever meets the sky
On the highway of love

We can't stop now, we can't look back
(No turnin' back)
We can't give up, it's you and me
On the highway of love
