Baby I'm free

Free to be with you tonight

Look into my eyes and say that it' alright

Come and love me for a while

I wanna see you smile

'Cause I wanna take you - take you around
the world in my arms

I wanna take you where you've never
been before

I wanna hear you say I'm what you're
lookin' for

'Cause it ain't that far to reach and touch
a star

Girl I wanna take you - take you around the world in
my arms

And where I wanna take you is right here
where we are

Babe I wanna take you - take you around t
he world in my arms
