"Hollow Deep As Mine"

If I had sent a message
Like a whisper on the breeze
I reckon it's not wonder
That it never got to me
I'm down here in Kentucky
Where the sun don't ever shine
The wind don't blow in a hollow deep as mine
Oh if I raise my eyes
And look straight up in the sky
I can see the clouds rolling by
Well they're and then they're gone
But I'm still here alone
The wind don't blow in a hollow deep as mine

I saw a little blue bird
Heard him singing through the trees
It brought me right back to you

Just as pretty as you please
Then he took to flying
Disappeared among the pines
I can't get out of a hollow deep as mine

Oh if I raise my eyes
And look straight up in the sky
I can see the clouds rolling by
Well they're and then they're gone
But I'm still here alone
The wind don't blow in a hollow deep as mine
No the wind don't blow in a hollow deep as mine
