Buddy give me a bottle I'm gonna drink it dry
Then I'll it back up with the tears I cry
Gonna stay in this barroom all night till dawn
Cause all she'd left me when she left was alone
I ain't leavin' till she's gone she won't leave till I get
stoned
I'm gonna set here on this stool till the burning mem'ry
cool
Then you can call someone to take me home I ain't
leavin' till she's gone
[guitar]
When you're down with the whiskey it's the all way up
Cause one drinks too many and it ain't enough
Lord but she's still here so why have one more
And I'll just hang around till they close the door
I ain't leavin' till she's gone...
[guitar - steel]
I'm gonna set here on this stool...
I ain't leavin' till she's gone Lord lord
