If You Want Me To - Joe Diffie

Darlin' I'll pack up my clothes  
Take my heart on down the road  
I'll even make believe I don't love you.

Lose my mind, go insane, turn my face to the pourin'  
rain  
There's nothin' I wouldn't do if you want me to.

But I'd rather stay around and love you  
And be the one to make your dreams come true  
But if it takes good-bye to make you happy  
Then I'll just walk away if you want me to.

If there's no way to make it work  
I'll find a way to hide the hurt  
I'll do my best to do what's best for you.

I'll just take your memory and disappear quietly  
Quit acting like a fool if you want me to.

But I'd rather stay around and love you  
And be the one to make your dreams come true  
But if it takes good-bye to make you happy  
Then I'll just walk away if you want me to.

Ohh if it takes good-bye to make you happy  
Then I'll just walk away if you want me to.
