I never did good in school
I was a rebel at heart
While everybody was makin' the grade
I was getting up to no good to an art

But then you came along
And baby there I went
Darlin' with a kiss all of that english
Finally started makin' sense

You got me feelin' so good
It's more better the I thought it would be
Girl you taught me things that I never learned in school
I'm in love with a capital U

I always hated math

It never did add up
Evertime the teacher said, "Pi R square"
All that I could think about was goin' to lunch

Science and history they only wore me out
Oh but darlin' since we met
I finally found a subject I know a little something about

You got me feelin' so good
It's more better the I thought it would be
Girl you taught me things that I never learned in school
I'm in love with a capital U
