Tell the kids today, I'm not afraid
I got a hand full of dust
And a mouth full of pain

Want out..
We all want out [2x]

*Made some bad mistakes
Those are the breaks
I got a patriot high
With some symbolic quakes
Can't see the sun spots, through the domestic haze
Can't hide the makeup, cause you never can see, never
can breathe*

Want out..
We all want out [2x]

*Replace the name on your designer jeans with a flame
Income taxes for the youth
Intellect is all we know
And I believe this time that it's an uphill climb
You have to hold on tight
The weight's too heavy now*

Want out..
We all want out [2x]
