She's more than I could ever ask for
More than I deserve
Why am I the lucky one
Who means the world to her
She's the best of everything
Sometimes I think it's all a dream
Chorus:
She loves me
It's like my heart just can't believe
Whe loves me
She could have most anyone she pleased
But she loves me

She's the one who takes my hand and
Takes my breath away
Takes me where I want to go
And where I want to stay
She turns to me and says my name
And I feel things I can't explain
(Chorus)
She's the best of everything
Sometimes I think it's all a dream
(Chorus)
