Started from the end  
The worst is the best thing that I ever knew  
Moses is my friend  
Since I'm playing second fiddle in duet  
I'm paying what I am regretting  
Sometimes you get what you want  
Sometimes you get what you need, but you're always  
gonna get what you deserve  
It's all about what you want  
If you can get what you need  
You're always gonna get what...  
Elvis isn't dead  
He's just on vacation with Jim Morrison  
Sold my soul again  
While I was whistling Dixie in a panic  
Powers above was clapping frantically  
Sometimes you get what you want  
Sometimes you get what you need  
But you're always gonna get what you deserve  
It's all about what you want

If you can get what you need  
You're always gonna get what...  
Sometimes you get what you want  
Sometimes you get what you need  
But you're always gonna get what you deserve  
It's all about what you want  
If you can get what you need  
You're always gonna get what...  
Sometimes you get what you want  
Sometimes you get what you need  
But you're always gonna get what you deserve  
It's all about what you want  
If you can get what you need  
You're always gonna get what you deserve  
Sometimes you get what you want  
Sometimes you get what you need  
But you're always gonna get what you deserve  
You're always gonna get what...
