they won't deny your own education now
they won't buy what is on your plate now
they won't deny there is segregation now
they won't buy what is on their table

why don't you believe, believe in your own god?
why don't you believe, believe in your own god?

they will deny there is separation now
they will deny there is confrontation now
we won't buy in their deception now
we won't buy what is on our plate now

why don't you believe, believe in your own god?
why don't you believe, believe in your own god?

they won't deny there is separation
once you slip a-way down, your head down
won't you look all around yourself
try to live in your own special life?

why don't you believe, believe in your own god?
why don't you believe, believe in your own god?
why don't you believe?
why don't you believe?
why don't you believe?
why don't you believe?
why don't you believe?
why don't you believe?
why don't you believe?
why don't you believe?
