She comes to me
With her mind on her sleeve
And he tries to bleed
With his heart that don't beat

They'll bring you down if you're ready or not
Don't you know that we can stop the clock
All my friends take a rocket to space
I'll meet you there with a smile on my face, yeah

Rocket to space

Why have you changed
Of your mind from the rest
And I hate the truth
About you in control

They'll bring you down if you're ready or not
Don't you know that we can stop the clock
All my friends take a rocket to space
I'll meet you there with a smile on my face, yeah

Rocket to space

So why
So why don't we go
So why
So why don't we go

Rocket to space

With a smile on my face
In a rocket to space
