She just likes to call
She's got something to say
She just likes to call
She knows how to complain

chorus:
But she's got her education
She knows just what to say

She says
Fuck you
She says
Fuck you

She just likes me to crawl
She's got someone to blame
She starts to annoy
When she tries to understand me

chorus

She just likes to call
With all this time to waist
She just likes to call
Maybe I should say...

chorus x2
She says
She sells sea shells by the sea shore
