Yeah I'm standing here  
Holding the sky up above  
In these empty hands  
Holds the last of the love

Yeah I'm waiting for  
The walls to stand like before  
I'm still waiting for  
Help to get off the floor

I've seen you up  
I've seen you down  
I've come to terms that you live in sound  
I've seen you up  
I've seen you down  
I've come to terms that you live in sound

I'm still waiting here for you  
I'm still waiting here for you

Well I'm still waiting all these years  
I'm still waiting all these years

I've seen you up  
I've seen you down  
I've come to terms that you live in sound  
I've seen you up  
I've seen you down  
I've come to terms that you live in sound

That you live in  
That you live in sound

That you live in  
That you live in sound
